

PRODUCT CATEGORY

OIL SEPERATOR

PRODUCT NAME

REP-50 (replacement model)

APPLICATION

PETROL STATION

CAPACITY

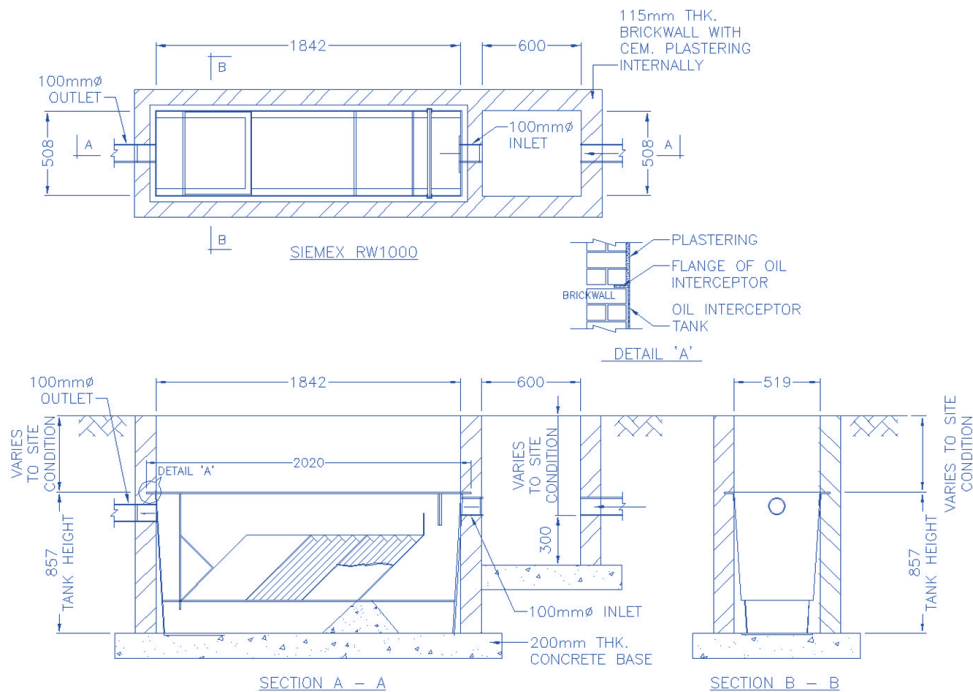

50 L/min

DESCRIPTION

Siemex oil separators base separation systems that utilize stable media to recover liquid hydrocarbons from oily water streams. Oil and water separate as they travel under laminar flow stream through highly efficient plate packs providing a high separation area for effective coalescence. Without moving parts, low maintenance and small footprint is guaranteed. *REP-50 is specifically designed for replacement of existing SIEMEX RW-1000 model oil separator with its streamlined designed which fit into most oil separators in the market*

APPLICATION

- Petroleum storage installations
- Heavy vehicle & light vehicle wash bays for heavy industries
- Petrol service stations
- Mechanical/Engineering workshops
- Car and vehicle workshops
- Industrial equipment wash-down
- Car wash / engine wash
- Contaminated storm-water treatment

TYPICAL INSTALLATIONS
